Harper Jackson	14	↓ -9	5 days ago

Grade Guardian™

AspirEDU, Inc.

Grade Guardian is a software solution that integrates with your LMS and identifies the students that are most at risk of dropping out of or failing courses. We review students' performance and behavior *on a nightly basis* across ALL courses in which they are enrolled and we calculate a single Risk Index Score for each student. (Just like a credit score.) Grade Guardian makes it easy for schools to quickly identify students that need the most immediate support.

We also make it easy to use LMS data to help students. We list all classes & grades on one screen and provide dashboards for guidance counselors and for teachers. And much more!

Your School's Benefits

- Provides a “Daily Report Card” screen that lists all courses & grades for each student – on one screen.
- With the proper permissions, the Daily Report Card screen can be visible to any school user.
- Print or PDF on-demand **progress reports** for one or more students and easily email them to students or observers.
- Gives you the power to assign students to advisors, sports coaches or guidance counselors for **personalized dashboards**.
- Great for determining eligibility for sports.
- Offers the ability to type in “Notes” – a conversation log where school personnel can document and review discussions they've had with students.
- Ability to place a student on “**alert**,” which kicks off automated workflow.

Find out why dozens of school districts – large and small – added Grade Guardian to their student support toolkit in the past year.

info@aspirEDU.com

Other Key Features

- Analyzes key performance indicators like grades, participation in discussions, assignment submissions, missing assignments and other behaviors.
- **Automatically identifies at-risk students.**
- Presents rolling 30-day and 30-week histories of a student’s risk profile.
- Links back to the LMS for easy access to detailed information.
- Lists communication channels entered by the student – cell numbers, email addresses, Twitter screen names and Facebook addresses make it easy to reach the student.
- Supports automated email messaging based on data.
- **Implements within days** and is an **affordable** way to retain & support students.

The screenshot shows the ASPIREDU Grade Guardian interface. At the top, there is a navigation bar with the ASPIREDU logo, links for 'Grade Guardian', 'Reports', 'Help Desk', and 'Contact Us', and a user greeting 'Hi Chris!'. Below the navigation bar, the main content area is titled 'Students (24 total)'. On the left, there is a sidebar menu with 'All students' selected, and a 'Filter Students' dropdown. On the right, there are buttons for 'Download Reports' and 'Send Message', and a search bar labeled 'Type to search...'. The main table displays a list of students with their risk index scores, trends, and last notes. The table is color-coded by risk level: red for high risk, yellow for medium risk, and green for low risk.
